Aditya Walvekar

AI & Machine Learning Engineering Student · Developer · Graphic Designer

adityawalvekar10@gmail.com | Kolhapur, Maharashtra | aadi-x.github.io/portfolio | linkedin.com/in/aditya-walvekar | github.com/aadi-x

EDUCATION

Sanjeevan Institute of Technology (SIT) — 2024 – 2028 (Expected)
Bachelor of Technology (B.Tech) in Artificial Intelligence & Machine Learning — Panhala, Kolhapur

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), C, C++, SQL, HTML5, CSS3
AI / ML & Data: Scikit-Learn, Pandas, NumPy, NLTK, Natural Language Processing, EDA, Matplotlib, Seaborn
Web & Tools: HTML5 Canvas API, LocalStorage, Streamlit, Git, GitHub, REST APIs, Linux CLI
Creative Design: Adobe Photoshop, Adobe Illustrator, Canva, CorelDRAW, Commercial Print & Brand Identity

WORK EXPERIENCE & INTERNSHIPS

Suyash Graphics — Lead Graphic Designer & Freelancer — 2023 – Present
Commercial Print Advertising, Brand Identity & Digital Campaigns — Kolhapur, India

- Designed and delivered 100+ commercial print banners, flex hoardings, festival creatives, and marketing flyers for retail clients.
- Managed complete print pre-press workflows, color calibration, and published campaign assets on Instagram (@suyashgraphics09).

Data Alcott Systems — AI & NLP Intern — Verified Internship · Remote

- Engineered NLP pipelines in Python for raw text preprocessing, tokenization, stopword removal, and vocabulary parsing with NLTK.
- Implemented TF-IDF feature extraction and trained sentiment classification models on multi-class text datasets using Scikit-Learn.

SkillCraft Technology — Machine Learning Intern — Verified Internship · Remote

- Performed exploratory data analysis (EDA), handling missing values, feature scaling, and correlation metrics on structured datasets.
- Trained supervised models in Scikit-Learn; tuned hyperparameters and evaluated performance via cross-validation and ROC-AUC.

CodeAlpha — Artificial Intelligence Intern — Verified Internship · Remote

- Developed Python scripts and machine learning models for computer vision and predictive analysis; awarded an official Letter of Recommendation (LOR) for self-directed problem-solving and project quality.

Additional Internships: *Codec Technologies* (AI & NLP Intern — built Streamlit web deployment for text classification), *CodSoft* (Data Analytics Intern — Pandas/NumPy analysis & dashboards), *Cognifyz Technologies* (Python Developer Intern — OOP scripts).

PROJECTS

Habit Tracker Studio — *HTML5, CSS3, JavaScript (ES6+), LocalStorage API* — Demo: habit-studio

- Engineered a responsive daily habit-building web application featuring real-time streak computation and weekly completion metrics.
- Implemented persistent client-side storage utilizing the browser LocalStorage API, enabling full offline usability with zero backend overhead.

Rocnet Arcade Survival Game — *HTML5 Canvas, JavaScript, 2D Physics Engine* — Play: rocnet-game

- Built an interactive 2D space arcade shooter running at 60 FPS using the HTML5 Canvas API and customized game loop mechanics.
- Programmed vector-based projectile velocity, collision boundary algorithms, particle spark effects, and touch controls for mobile.

NLP & Predictive Machine Learning Workflows — *Python, NLTK, Scikit-Learn, Streamlit* — Docs: live-projects

- Built text classification pipelines with TF-IDF matrices, alongside regression workflows with 5-fold cross-validation and evaluation metrics.

LEADERSHIP & COMMUNITY ROLES

Google Student Ambassador (GSA 2026) — Google (Active · 2026)
Campus developer advocate organizing peer workshops on modern developer tools and AI literacy.

AWS Student Builder — Amazon Web Services (Active · 2026)
Community builder exploring cloud computing architectures, serverless design, and scalable infrastructure.

CERTIFICATIONS & PROFESSIONAL TRAINING

AI for All: From Basics to GenAI — NVIDIA Deep Learning Institute
Introduction to Generative AI — Google Cloud / Simplilearn
GenAI Powered Data Analytics — Tata Group (Forage Job Simulation)
Claude Code 101 — Anthropic (Prompt Engineering & Agentic AI)
40+ Learning Badges & Modules — Microsoft Learn (Azure AI, Cloud & Python)
Data Analytics Simulation — Deloitte (Forage Job Simulation)
