Aditya Walvekar

AI & Machine Learning Engineering Student · Graphic Designer

+91 7083756095 | **adityawalvekar10@gmail.com** | Kolhapur, Maharashtra

aadi-x.github.io/portfolio | **linkedin.com/in/aditya-walvekar** | **github.com/aadi-x**

PROFESSIONAL SUMMARY

Third-year AI & Machine Learning student with hands-on experience in Python, exploratory data analysis, and predictive modeling. Built practical NLP classification pipelines and Streamlit applications across verified remote internships. Experienced in commercial graphic design with 100+ delivered print assets, combining technical analytical skills with visual communication craft.

EDUCATION

B.Tech in Artificial Intelligence & Machine Learning — Sanjeevan Institute of Technology, Kolhapur — 2024 – 2028 (Expected)

Higher Secondary Certificate (HSC, 12th) — Maharashtra State Board — 66.00%

Secondary School Certificate (SSC, 10th) — Maharashtra State Board — 89.00%

TECHNICAL SKILLS

Languages:	Python, C, C++
AI / ML & Data:	Scikit-Learn, Pandas, NumPy, NLTK, Machine Learning, Natural Language Processing (NLP), EDA, Matplotlib, Seaborn
Frameworks & Tools:	Streamlit, Git, GitHub, VS Code
Creative & Design:	Adobe Photoshop, Adobe Illustrator, Canva, CorelDRAW, Premiere Pro, Commercial Print & Brand Identity

WORK EXPERIENCE & INTERNSHIPS

Suyash Graphics — Lead Graphic Designer & Freelancer — 2023 – Present · Kolhapur

- Designed and delivered 100+ commercial print banners, flex hoardings, festival posters, and marketing creatives for local retail clients.
- Managed complete print pre-press workflows, CMYK color profiles, layout alignment, and published promotional assets on Instagram (@suyashgraphics09).

Codec Technologies — Artificial Intelligence Intern — Verified Remote Internship

- Built an AI-based Spam Email Classifier in Python utilizing NLTK, TF-IDF feature extraction, and Scikit-learn algorithms.
- Constructed the complete pipeline from raw text preprocessing to model training and interactive Streamlit web deployment.

Data Alcott Systems — AI & NLP Intern — Verified Remote Internship

- Engineered NLP pipelines for raw text preprocessing, tokenization, stopword removal, and vocabulary parsing with NLTK.
- Implemented TF-IDF feature extraction and trained text classification models on multi-class datasets using Scikit-learn.

CodeAlpha & SkillCraft Technology — AI & Machine Learning Intern — Verified Remote Internships

- Developed an NLP-based FAQ assistant and language translation prototype using Python, Streamlit, and Cosine Similarity (awarded official Letter of Recommendation).
- Conducted exploratory data analysis (EDA), handling missing values, feature scaling, and model evaluation with cross-validation.

Additional Internships: *CodSoft* (Data Analytics Intern — Pandas & NumPy analysis), *Cognifyz Technologies* (Python Developer Intern — OOP scripts).

PROJECTS

AI Spam Email Classifier — *Python, NLTK, Scikit-learn, TF-IDF, Streamlit* — View Project

- Built an NLP model to classify incoming text messages and emails as spam or legitimate with high classification accuracy.
- Trained a Multinomial Naive Bayes classifier on preprocessed text and deployed an interactive Streamlit UI for real-time predictions.

NLP FAQ Chatbot & Translation Tool — *Python, NLTK, Cosine Similarity, Streamlit* — View Project

- Developed a smart FAQ assistant that matches user queries with knowledge base responses using TF-IDF vectorization and cosine similarity.
- Implemented text normalization, tokenization, and regex-based input validation for clean conversational response generation.

Exploratory Data Analytics & Visualization Workflows — *Python, Pandas, NumPy, Matplotlib, Seaborn* — View Project

- Analyzed structured tabular datasets to identify statistical distributions, correlations, outliers, and feature importances.
- Generated publication-quality visualization charts and actionable reports for data-driven insights.

LEADERSHIP & COMMUNITY ROLES

Google Student Ambassador (GSA 2026) — Google (Active · 2026)
Organizing peer technical sessions on campus focused on developer tools and foundational AI literacy.

AWS Student Builder — Amazon Web Services (Active · 2026)
Member of the student community exploring cloud computing fundamentals and scalable architectures.

CERTIFICATIONS & TRAINING

AI for All: From Basics to GenAI — NVIDIA Deep Learning Institute
Introduction to Generative AI — Google Cloud / Simplilearn
Data Analytics Simulation — Deloitte (Forage Simulation)
Claude Code 101 — Anthropic (Agentic AI)
GenAI Powered Data Analytics — Tata Group (Forage Simulation)
Career Edge - Young Professional — TCS iON
