

ADITYA WALVEKAR

AI & ML Student

+91 7083756095 | adityawalvekar10@gmail.com | [linkedin.com/in/aditya-walvekar](https://www.linkedin.com/in/aditya-walvekar) | github.com/aadi-x

PROFESSIONAL SUMMARY

AI & ML student skilled in Python, C/C++, Data Structures & Algorithms, and Machine Learning, with hands-on experience building real-world AI projects including NLP-based classification systems and data analytics solutions. Strong foundation in problem solving and a consistent track record of turning academic concepts into deployed, working applications.

EDUCATION

B.Tech - Artificial Intelligence & Machine Learning, Sanjeevan Institute of Technology	<i>2024 - Present</i>
Higher Secondary Certificate (HSC)	<i>66.00%</i>
Secondary School Certificate (SSC)	<i>89.00%</i>

INTERNSHIPS / EXPERIENCE

Artificial Intelligence Intern - Codec Technologies Pvt. Ltd.	<i>July 2026 – Aug 2026</i>
- Developed an AI-based Spam Email Classifier using Python, NLP, TF-IDF, and Machine Learning to accurately identify spam messages. - Handled the complete pipeline including text pre-processing, feature extraction, model training, and application deployment.	
Data Analytics Intern - CodSoft	<i>July 2026 – Aug 2026</i>
- Performed exploratory data analysis (EDA) and data pre-processing on real-world datasets using Python. - Conducted data analysis and visualization using Pandas, NumPy, Matplotlib, and Seaborn to derive actionable insights.	
Artificial Intelligence Intern - CodeAlpha	<i>July 2026 – Aug 2026</i>
- Developed AI-based projects including a Language Translation Tool and NLP-based FAQ Chatbot using Python, Streamlit, NLTK, TF-IDF, and Cosine Similarity. - Gained hands-on experience in Natural Language Processing, AI application development, text pre-processing, and interactive web app development.	

TECHNICAL SKILLS

Programming Languages: Python, C, C++

Core: Data Structures & Algorithms, Problem Solving, Machine Learning, NLP, Data Analysis

Libraries/Tools: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, NLTK, Streamlit, Git/GitHub

Design Tools: Adobe Photoshop, Adobe Illustrator, CorelDRAW, Canva

Video Editing: Premiere Pro, After Effects, CapCut

PROJECTS

Spam Email Classifier - Spam Email Classifier · Streamlit
- Built a machine learning model using Python, NLP, and TF-IDF to classify emails as spam or not spam. - Implemented text preprocessing and trained a Multinomial Naive Bayes model for accurate classification. - Deployed the application using Streamlit for real-time, interactive predictions.
Habit Studio - Habit Tracking Web App - aadi-x/habit-studio: These is a Habit Tracking app.
- Built and deployed a responsive habit tracking application using HTML, CSS, and JavaScript. - Implemented habit management and progress tracking features for daily user engagement. - Deployed the application using GitHub Pages for public access.

CERTIFICATIONS

- Microsoft AI & Machine Learning Certifications
- Skill-Up Generative AI
- Tata - GenAI Powered Data Analytics Job Simulation
- Deloitte - Data Analytics Job Simulation
- TCS iON Career Edge - Young Professional

ACHIEVEMENTS

- Google Student Ambassador 2026 (Ongoing)
- AWS Student Builder Group Member 2026 (Ongoing)
